The following information explains how an AB 540 student must complete an on-line application to enter the CSU system. Follow these simple suggestions and find more information at:
http://krcla.org/en/California_Immigrant_Higher_Education_Act_(AB_540)

1. You are not required to complete every part of your application. In particular, you may leave these fields empty:

   Social Security Number (SSN)
   Immigration Status
   Visa Type and Date

Not completing these sections does not suggest that you are concealing any information. Rather, it is to prevent possible discrimination against you based on immigration status.

2. Do not write false information:

   If you do not have a SSN and the school insists that you enter one, write 000-00-0000 or "AB540".
   Even if you are in the process of applying for permanent residency, do not check "Permanent Resident" if you are not one yet.
   Do not write that you hold a visa if it expired.
