

Areas for Collaborative Research

Michael Shafae
Assistant Professor
Computer Science Department
CSU Fullerton

Research Interests

Real-time rendering

Parallel rendering

Mesh processing

Visualization

Image processing

Computational geometry

Current Projects

Parallel rendering on a P.C. cluster

Level-of-detail rendering with single triangle strip models

Ethnographic study of online social network use for e-commerce

Previous Projects

Level-of-detail rendering with triangle strip maintenance

Load balancing for sort-first parallel rendering

Out-of-core terrain visualization
