

**TWO-YEAR TRANSFER STUDENT ROADMAP AND CHECKLIST FOR BS IN PUBLIC HEALTH
GLOBAL HEALTH CONCENTRATION
120 units**

The Bachelor of Science in Public Health can be completed in four years, but to do so requires careful planning and preparation. You must average 15 units (five courses) per semester and you must plan ahead so that you will meet all requirements. You can opt to complete courses in the summer or winter session. The below plan is a sample Roadmap. Students may decide or need to switch courses from one semester to another. If you are planning to work, you should adjust your unit load accordingly.

New upper-division transfer students can complete the upper-division requirements in two years provided you have completed at least 60 transferable units, are fully GE certified, and have completed all of the lower-division Public Health courses.
