Teaching Performance Expectations: Part 1 – General TPEs

In the matrix below, denote the candidates' opportunity to learn and master the competencies listed. The required course names and numbers should go across the top of the matrix, replacing the "Course Title and Number" text below. For each competency, note when the program/candidate introduces (I), practices (P), and assesses (A) the competency. Notations may occur under more than one course heading. Each notation should link to a specific place in the syllabus within that course that demonstrates that this is occurring. In the matrices below, after each TPE competency is read, there will be 15 blank fields within which you can enter the respective notations. Please note you are not required to enter information in every blank field.
