Hurricanes & Climate Change

A Message Hidden in Spanish Shipwrecks during the Golden Age of Piracy

When? 10am-2:30pm, Friday, 11/3/2017

Where? TSU Pavilions A&B, CSU Fullerton.

What? A Geography conference featuring paper and poster sessions, a special panel presentation, & a demonstration of CSUF Geography's state of the art Augmented Reality Sandbox.

Special Keynote Presentation: Find out how Spanish shipwrecks in the Caribbean and tree growth records from the Florida Keys can tell us about hurricanes in the Atlantic and climate change!
