Today's Objectives

- What is Criminal Justice?
- How can faculty help you be successful?
- How many units should I take each semester?
- How can campus resources help you be successful?
- How many units are required for graduation?
- What classes are required for the CRJU major?
- Should I consider a double major or a minor?
- What classes should I take in the Fall?
- How can I get involved on campus?
- Where do I go for more information about the Department?

What is Criminal Justice?

- Criminal Justice is the academic study of crime, law and the justice system.
- Criminal Justice is an interdisciplinary course of study within the social sciences.
- A criminal justice major is not a job training program. BUT it will provide you with the skills and experiences to be successful within the criminal justice and related fields
 - Critical thinking
 - Research and writing skills
 - Exposure to diverse perspectives and research

Fall will be different.....

- The campus currently plans to hold classes virtually.
- Classes may be synchronous or asynchronous.
- Think about what you need to be successful in a virtual environment.
- Find a system to keep you organized
- Talk to your faculty about their policies on webcams during Zoom classes / meetings
- There are many ways to be involved with campus even virtually
- Canvas and Titanium (Moodle)

Tips for Online Success

- **Set a routine and Stay Organized!**
 - Schedule a set time for all of your classes (synchronous and asynchronous), this must include study time.
 - Plug these times into your calendar and don't let anyone/anything invade those times; stick with your schedule.
- **Add exams/due dates to your calendar and SET REMINDERS!**
 - Hint: Canvas will do this for you if your instructors use Canvas & enter due dates.
- **Read the syllabus (and rubrics) to know what is expected of you.**
 - Use the syllabus to plan your weeks
- **Do not procrastinate.**
- **Study for 20-30 minutes then take a quick 5-10 minute break.**
- **Establish a set study space at home with stable internet**
 - Work with family members to establish quiet time to study (you may need to get creative if you have a large household or multiple students)
 - CSUF has free loaner laptops and Mi-Fi devices for students!
- **Feeling unmotivated? Use the lamppost strategy! (Set small goals.)**

How can faculty help you be successful?

- Review your course syllabi
- Introduce yourself to your faculty
- Ask questions during class
- “Visit” faculty during office hours
- Reach out for help always
 - (this is especially important if “life hits the fan”)

School/Life Balance

- How many units do you plan to take?
 - 15 units per semester = graduate in 2 years
 - 12 units per semester = graduate in 3 years

Hours Dedicated to Outside Obligations (Work/Family/Commuting) Per Week	Recommended Maximum Number of Units Per Semester
0 – 9	14 - 16
10 – 19	13 – 14
20 – 29	9 – 12
30 – 39	6 – 9

- Studying: For each class that you take (3 hours), you will want to spend an additional 6-9 hours studying / completing class assignments per week.
