Student Learning Outcome (SLO) – Core Competency Alignment

Degree Program (e.g. B.S. Biology)**: _____**

Please enter your program's specific SLOs in the SLO column. You may use numbers or abbreviations from your own SLO list – just be sure to provide us a copy of the list.

Please place an "X" where a SLO aligns with the core competencies. Each SLO can align with multiple core competencies. You can also place courses in your curriculum that address each of the core competencies in the corresponding box.

Student Learning Outcome (SLO)	Core Competencies				
	Critical Thinking	**Information Literacy**	**Quantitative Reasoning**	**Oral Communication**	**Written Communication**

Please review your table. If some of the core competencies are not addressed by your SLOs, please answer the questions below:

1. Do you anticipate these core competencies being addressed in GE? If so, which GE areas (e.g. upper/lower GE, GE area A, specific GE courses)?

2. If not addressed in GE, where in the curriculum do you see these core competencies being addressed?
